

# La Mer Et La Musique

Music by Gianluca Barragato

"La Mer et la Musique" is a five-movement suite for soprano and cello, inspired by Charles Baudelaire's poems that evoke two elements particularly dear to me: **the sea and music**, representing depth and infinity.

Each movement of the suite is built around a Baudelaire text that celebrates the sea and music, paying homage to the emotional and sensory power of these natural and artistic elements.

The pieces are performed with great mastery by **Valentina Coladonato** (soprano) and **Fernando Caida Greco** (cello), members of the **Syntax Ensemble**. Their sensitivity and interpretive skill have brought this composition to life in an extraordinary way.

The Suite was Premiered at Alfredo Piatti Hall in Bergamo.

I hope that the music and words can offer a unique and immersive experience, capable of evoking the same emotions I felt while composing this suite.
